PERSONAL PROJECTS

- LiveConnect – Real-Time ChatApplication

Built a MERN stack chat app with real-time messaging using Socket.IO. Implemented secure JWT-based authentication, online user status, image sharing, and a responsive UI with React and Tailwind CSS. Developed REST APIs with Node.js/Express and integrated MongoDB for data storage and session management

- Streamify – MERN Social Media Web App

Developed a full-featured social media platform using the MERN stack. Implemented secure authentication with Clerk, real-time chat using Socket.IO, and media-optimized posts with ImageKit. Built features like feeds, stories, friend requests, follow system, search, and automated background jobs using Inngest for story expiry and notifications

EXPERIENCE
